

Commendation

Presented to

Rolando J. Pozo

In recognition of a website, which you created to bring justice on behalf of your Brother-n-Law, Mr. James Burton, a City of Tampa Employee, who was killed by a hit and run career criminal in September 2003. With the help and support of your family and friends, the career criminal driver was found and taken into custody in just three days after your website went online. It is with great sincerity that we recognize your actions, which in turn have encouraged others to seek your help in generating the same response in open cases. The Tampa City Council hereby commends you with great pride for your courage in taking action to bring justice in the name of Mr. James Burton.
